What is Turnitin?

- What do you know about Turnitin?
- What are some common misconceptions about Turnitin?

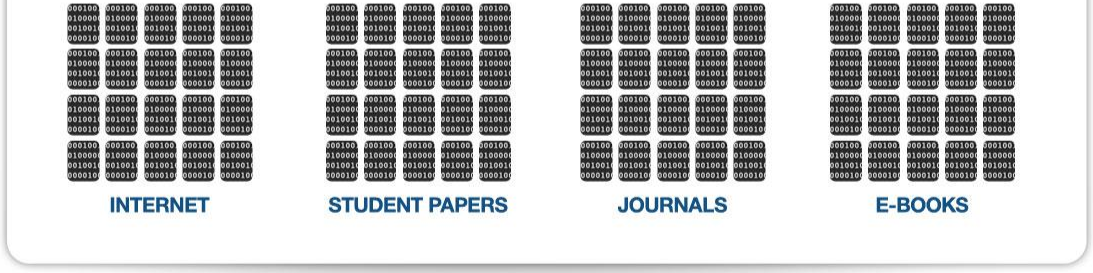

Turnitin Misconceptions

- Detects plagiarism
- Matches are coincidental
- Matches identified are the exact source

ORIGINALITY CHECKING

ORIGINALITY CHECKING TECHNOLOGY

HOW OUR TECHNOLOGY WORKS

Technical Challenges

•Needle in a Haystack

For a single paper, check ~100 fragments against:

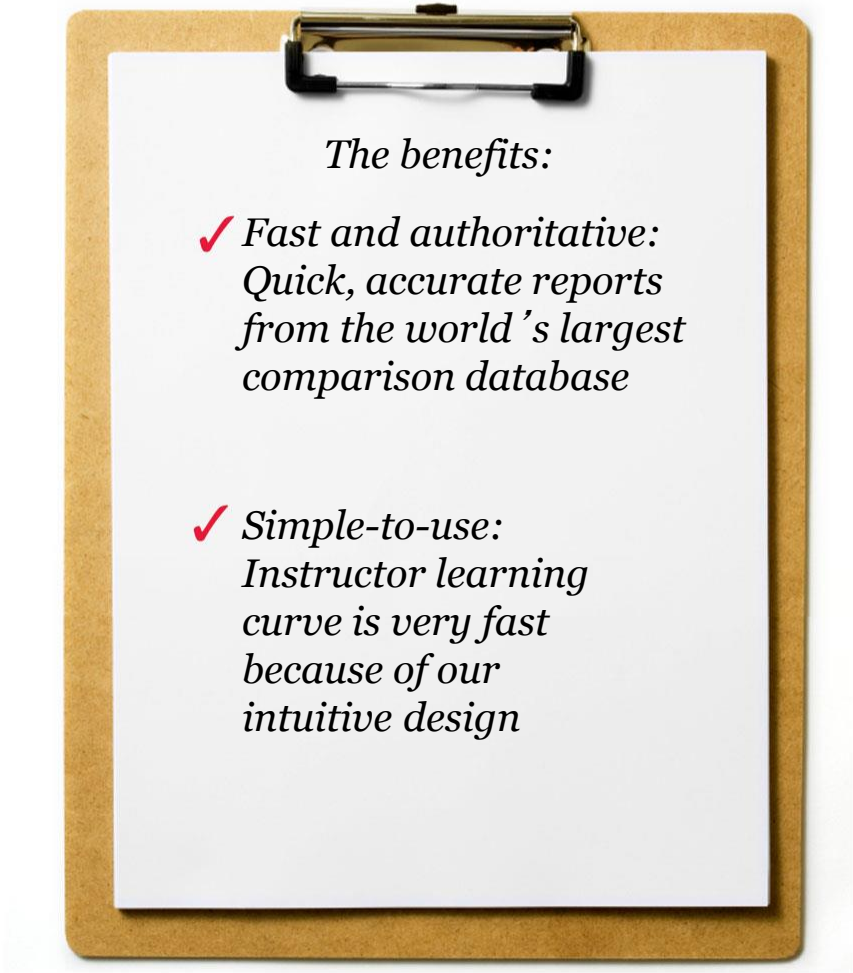

- A specially indexed copy of the Internet
- 400M+ student papers
- 130M+ books, journals, magazines and newspapers

•Signal vs. Noise

- In parallel, check for fuzzy matches, synonyms, word substitutions, paraphrasing and translated plagiarism
- Deliver close to zero false-positives

•Big Data, Fast

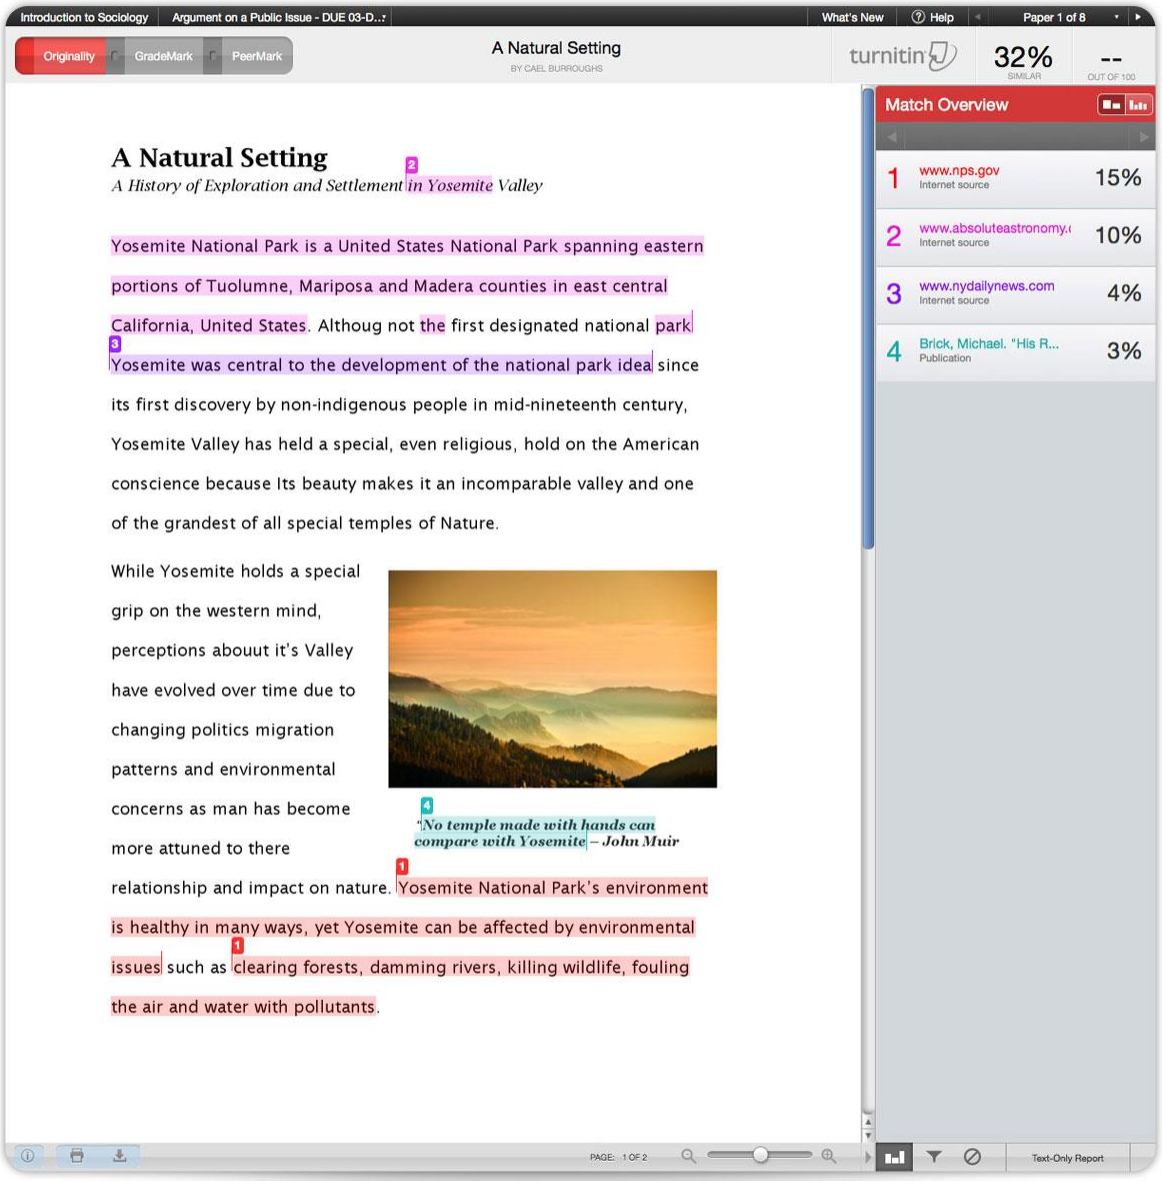

- Do this for up to 300,000+ papers a day
- Return results in under a minute

ORIGINALITYCHECK

Identifies matched content by comparing papers against:

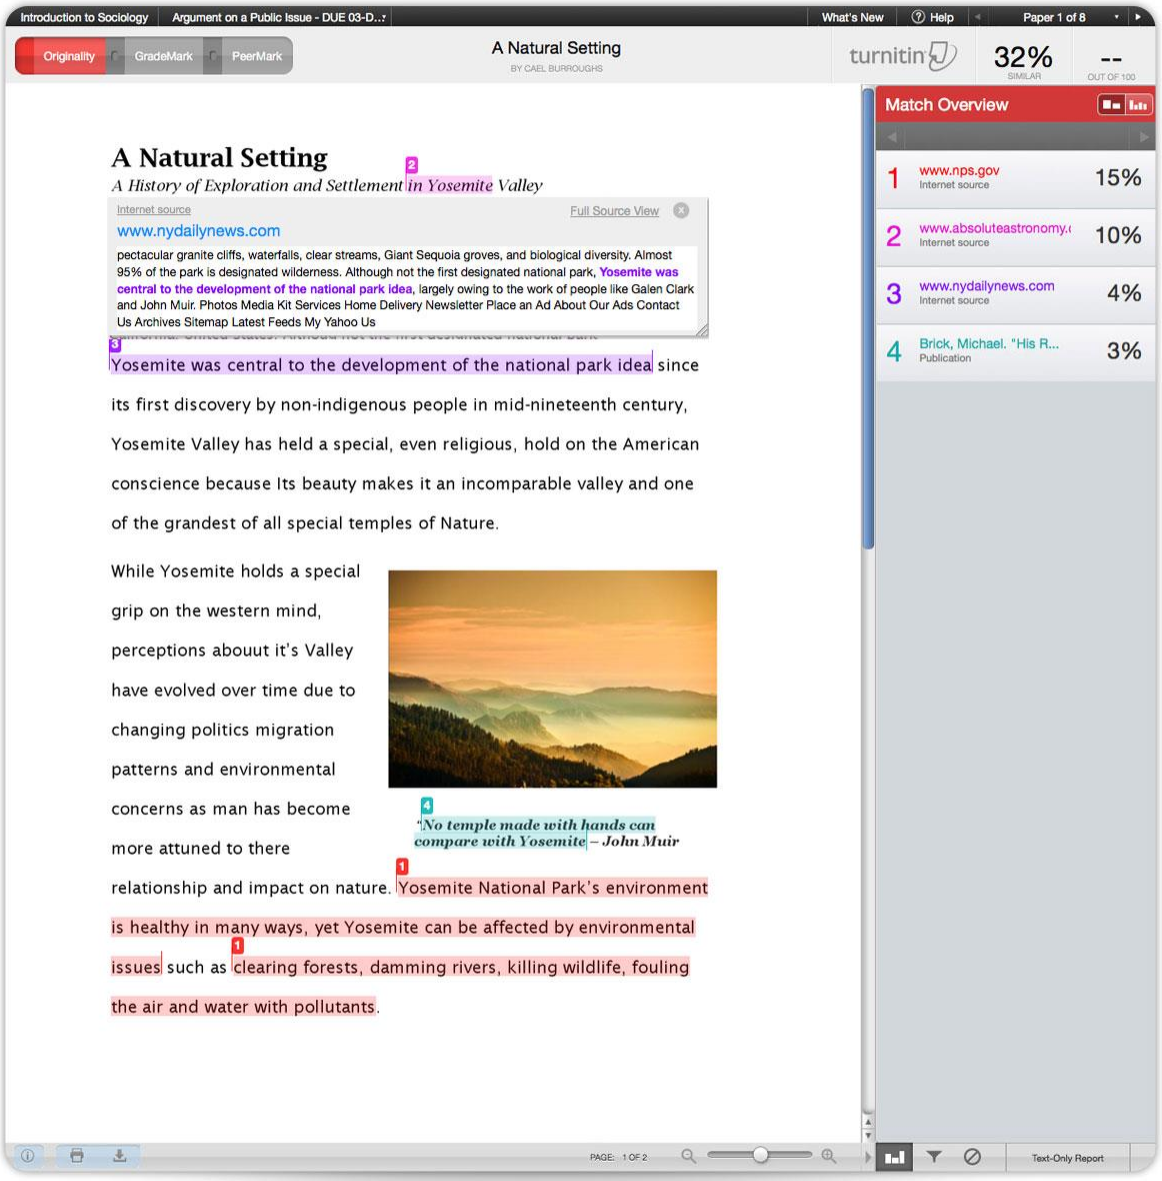

- 35 billion current & archived web pages
- 300 million student papers
- 130 million academic articles

ORIGINALITYCHECK

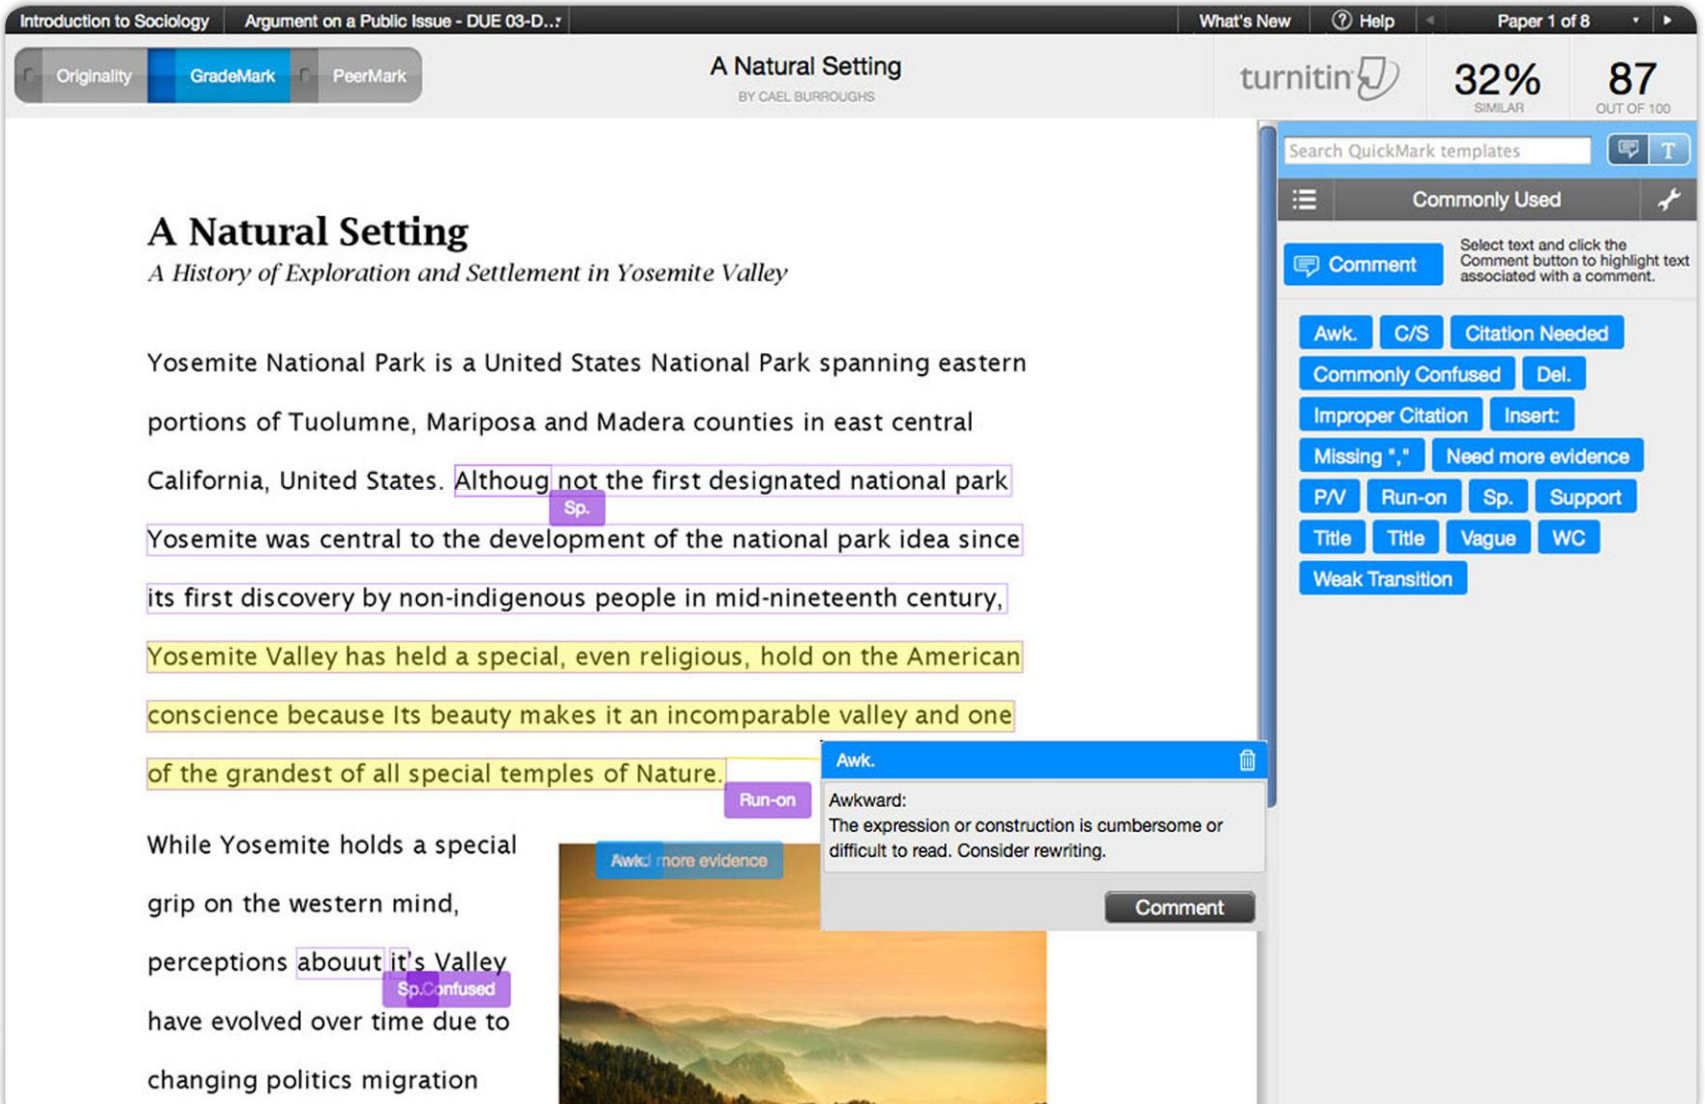

Insight into students sources

- View sources matched in student paper
- Compare original source material to student's written work
- Source Preview
- View additional sources
- Side-by-Side Comparison
- Link to Original Source
- Exclude quotes and bibliography

EFFECTIVENESS

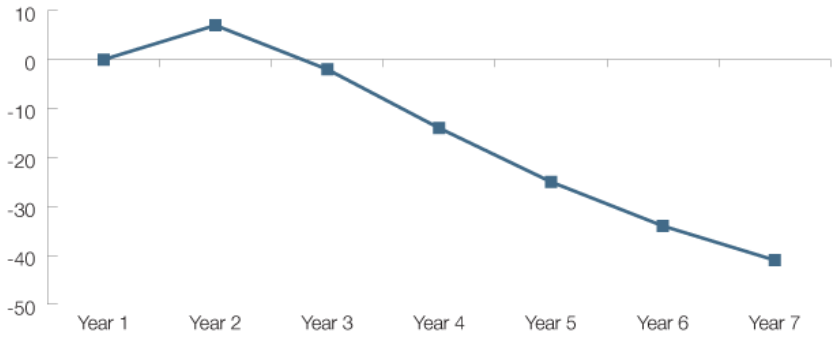

Evidence of Effectiveness - U.S. Customers

Higher Education:
48% Decrease in Unoriginal Content*

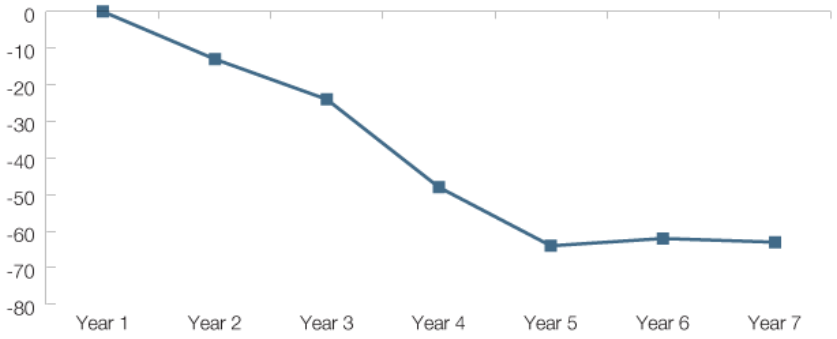

*33,860,285 submissions from 917 higher education accounts over 7 years.

4-Year Institutions:
41% Decrease in Unoriginal Content*

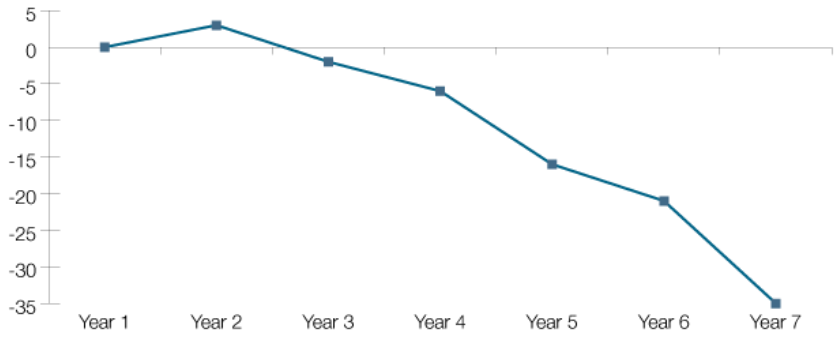

*25,913,970 submissions from 674 4-Year Institution accounts over 7 years.

2-Year Institutions:
63% Decrease in Unoriginal Content*

*7,946,315 submissions from 243 2-Year Institution accounts over 7 years.

Secondary Schools:
35% Decrease in Unoriginal Content*

*35,572,378 submissions from 2,862 Secondary School accounts over 7 years.

ACADEMIC INTEGRITY

Sample Academic Integrity Statement

Additional copy to include:

"In support of Academic Integrity at <your institution>, Turnitin will be used to review the papers that you submit in this class. Turnitin does not determine whether plagiarism has taken place or not. Turnitin will also not be used as a punitive tool or measure. The teacher of this class will use the reports that Turnitin generates as a basis for the thorough evaluation of the authenticity and originality of your work and the work of your classmates."

STRATEGIES

Originality Reports: Effective Use

- Turnitin identifies “matched content”
- Instructors determine whether matches constitute plagiarism
- Color coding of percentage scores do NOT signify plagiarism
- Exclude quoted material and bibliography to refine results

Assignment Preparation and Setup

- Peer review theses
- Assign annotated bibliographies
- Use multiple paper drafts to provide students with the opportunity to develop their writing over the span of an assignment

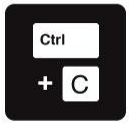

PLAGIARISM SPECTRUM

Tagging the 10 Types of Plagiarism

1. Clone

Submitting another's work, word-for-word, as one's own

2. CTRL-C

Contains significant portions of text from a single source without alterations

3. Find - Replace

Changing key words and phrases but retaining the essential content of the source

4. Remix

Paraphrases from multiple sources, made to fit together

5. Recycle

Borrows generously from the writer's previous work without citation

6. Hybrid

Combines perfectly cited sources with copied passages without citation

7. Mashup

Mixes copied material from multiple sources

8. 404 Error

Includes citations to non-existent or inaccurate information about sources

9. Aggregator

Includes proper citation to sources but the paper contains almost no original work

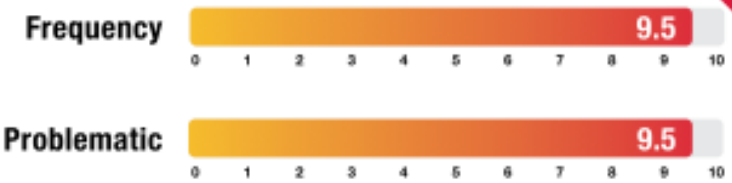

10. Re-tweet

Includes proper citation, but relies too closely on the text's original wording and/or structure

Clone

Submitting another's work, word-for-word, as one's own

Original

A Natural Setting

A History of Exploration and Settlement in Yosemite Valley

Since its first discovery by non-indigenous people in the mid-nineteenth century, Yosemite Valley has held a special, even religious, hold on the American conscience because its beauty makes it an incomparable valley and one of the grandest of all special temples of Nature. While Yosemite holds a special grip on the western mind, perceptions about the Valley have evolved over time due to changing politics, migration patterns and environmental concerns as man has become more attuned to his relationship and impact on nature.

While Yosemite holds a special grip on the western mind, perceptions about the Valley have evolved over time due to changing politics, migration patterns and environmental concerns as man has become more attuned to his relationship and impact on nature.

An Untouched View

A History of Settlement and Change in Yosemite Valley

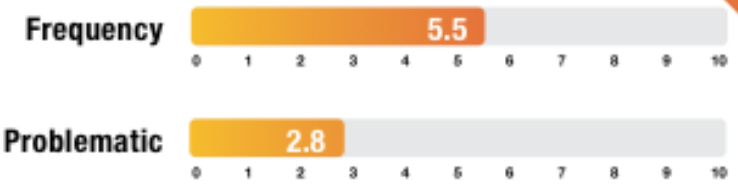

The first non-natives to see Yosemite Valley were probably members of the mid-nineteenth century Joseph Walker Party, who crossed the Sierra Nevada from East to West. The first descriptions of Yosemite came almost 20 years later. From the start, the valley has been renowned for its natural beauty, and highly regarded as he center-piece of Yosemite National Park, attracting visitors from around the world. While Yosemite holds a special grip on the western mind, perceptions about the Valley have evolved over time due to changing politics, migration patterns and environmental concerns as man has become more attuned to their relationship and impact on nature.

A Natural Setting

A History of Exploration and Settlement in Yosemite Valley[1]

Yosemite Valley was first sighted by non-Indians in 1833 by Joseph Rutherford Walker and his group of explorers.[2] Yosemite has a long and diverse cultural history that helped to shape the region, country, and even the world.[3] While Yosemite holds a special grip on the western mind, perceptions about the Valley have evolved over time due to changing politics, migration patterns and environmental concerns as man has become more attuned to their relationship and impact on nature.[4]

Unoriginal

A History of Exploration and Settlement in Yosemite Valley

From its earliest discovery by non-indigenous people in the mid-nineteenth century Yosemite Valley has held a spiritual hold on the American conscience; its beauty is incomparable and has been held up as one of the grandest of all special temples of Nature. While Yosemite has a special grip on the western mind, impressions about the Valley have evolved over time, shaped by changing politics, migration patterns and environmental concerns as mankind has become more attuned to its relationship and impact on nature.[1]

STUDENT SOURCES

How do students research in the digital age?

- “The internet has changed the very meaning of research”*
- Students value immediacy over quality in online research
- Over reliance on the “wisdom of the crowd”

*Pew Internet and American Life Project, *How Teens Do Research in the Digital World,* 2012

About this study

- Time frame: July 2011 to June 2012
- 38.3 million papers submitted to Turnitin in the U.S.
  - –Secondary Education: 9,931,758 papers
  - –Higher Education: 28,404,572 papers
- 156 million content matches

Turnitin Content Database

- **35+ billion pages of indexed web content**

- 400+ million student papers plus 300,000 new papers daily
- 130+ million articles from periodicals, journals, and other content databases

Matched Content Categories

Category	Definition
Social Networking & Content Sharing	Sites that rely on user-generated content rather than professionally-published content.

Findings

- Students struggle to recognize bias in sources
- Students are not always <*insert word here*> in evaluating sources for quality and appropriateness
- Research is synonymous with “search”

SOURCE EDUCATIONAL EVALUATION RUBRIC (SEER)

	Highly Credible		Credible		Discreditable
	4	3	2	1	0
AUTHORITATIVE	Highly-regarded site that is referenced and linked to by others. Information is well-referenced, cited, and written by authors with expertise in the content area	Well-regarded site that is well known in its category. Information is referenced and cited, with experts generating content	Regarded site that has reputable information that is referenced and cited	Site is slightly regarded--does not necessarily have information that is researched, referenced, or cited	Site is not regarded--information or resources provided are not researched, referenced, or cited
EDUCATIONAL VALUE	Site is a leading source of content that exceeds instructional goals	Site is a regarded source of content that meets instructional goals	Site content meets instructional goals	Site content does not meet instructional goals	Site content is inappropriate or actively subverts instructional goals
INTENT	Site is a highly-respected source of content provided to inform users	Site is a well-regarded source of information whose job is to inform	Site provides content to inform users	Site promotes content; the goal of the site is not to "inform" users	Site actively sells content
ORIGINALITY	Site is a primary source of original content and viewpoints	Site offers original content and viewpoints	Site offers some original content, combining it with repurposed content	Site aggregates or repurposes content	Site aggregates or repurposes content without appropriate citation or references
QUALITY	Site content is high quality (vetted, researched, and informed) and enough content is provided to establish good coverage	Site content is of good quality and there is a good content area coverage	Site content is of quality and there is some broader content coverage	Site content quality is lacking and good content is in limited quantity	Quality of content is questionable. Lack of quality information available.

SEER Criteria

- Authority: Is the site well regarded, cited, and written by experts in the field?
- Educational Value: Does the site content help advance educational goals?
- Intent: Is the site a well-respected source of content intended to inform users?
- Originality: Is the site a source of original content and viewpoints?
- Quality: Is the site highly vetted with good coverage of the topical area?

SEER Scoring

- 4.0 – 3.0: “highly credible, quality sources”
- 3.0 – 2.0: “credible sources”
- 2.0 – 1.0: “questionable sources”
- 1.0 – 0.0: “unacceptable or inappropriate sources”

Discreditable Source
